

AERODYNAMIC TOP FAIRING LEADEDGE

Cutting Your Costs, Fueling Your Profits

TRANSTEX® is the leader in the development and manufacturing of aerodynamic solutions for commercial vehicle applications. Designed with tandem trailers in mind, the LEADEDGE improves the airflow between the truck and trailer and between two tandem trailers.

THE EDGE ADVANTAGE

- No driver interaction
- Designed for quick and easy installation
- Designed to withstand all weather conditions
- Made in the U.S.A.
- Simple design
 - ✓ Less parts, low maintenance and no downtime
 - ✓ Intermodal compatible

Part Number	E-LEADEDGE
Weight	12 lbs
Material	Recyclable TPO (Thermoplastic Polyolefin)
Installation Time	Less than 1 hour
