

T-FLEX BLUE BRACKET

2 MILLION BRACKETS ACROSS NORTH AMERICAN ROADS

ZERO WARRANTY CLAIMS

BENDS BUT NEVER BREAKS

With over 20 years of experience in the transportation industry, TRANSTEX understands the importance of durability and an industry-leading warranty when it comes to trailer aerodynamics. Aerodynamic skirts are subject to damage while on the road. Which is why TRANSTEX designed and developed the T-FLEX Blue Bracket; a revolutionary bracket system for EDGE Skirts that is made to bend but never break.

T-FLEX BLUE BRACKET ADVANTAGES:

- **10** year warranty
- Highly **engineered patented** product
- **Save time** adjusting, repairing or replacing brackets
- Keeps panels straight and reduces vibrations for **optimized aerodynamics**
- Fast and easy installation for **reduced cost of ownership**

Pre-assembled hardware

Integrated features for fast installation

Angled to withstand a stronger load before deflecting

Engineered material with a nylon base

Concave design for flexibility and durability without permanent deformation

Part Number	T-FLEX
Weight	2.1 lbs*

*Includes Hardware
