

## DCLIMATE® eAPU DAY CAB CONFIGURATION

# IDLE-FREE POWER FOR DAY CABS

The DClimate® eAPU is a fully electric auxiliary power solution that provides reliable, idle-free comfort for drivers when the engine is off. With a hybrid design and OEM integration options, DClimate® can be customized to fit all major Class 8 day cab platforms — supporting your fleet's operational, regulatory, and driver satisfaction goals.

Cost  
Savings

Anti-Idle  
Compliance

Driver  
Comfort

Powerful Climate  
Control

Reduce Fuel  
Consumption

## SYSTEM SPECIFICATIONS

7000+ btu/hr. heating & cooling capacity*
400 CFM, airflow
4-60 Amps @ 12Vdc
48Vdc variable speed compressor
10+yr. major component design life
Espar S3 D2 diesel fired heater
External stainless-steel condenser
110-lbs, system weight (HVAC and battery management systems)
Optional 6-quart thermo-electric cooler/warmer
Warranty: 2-yr parts & labor, 4-yr major components, limited.

\*Also available in cool only

### TRUCK SPECIFICATION REQUIREMENTS

275-amp 40SI Delco Remy brushless alternator
EnerSys ODX-AGM 31 batteries (no auxiliary batteries required**)
